

**SURGICAL SEMINAR  
GUATEMALA  
July 16-20, 2018**

WELCOME

30-12 30th Avenue, Suite 230  
Astoria, NY 11102  
718.956.7800  
[www.dentalimplantsurgicalseminar.com](http://www.dentalimplantsurgicalseminar.com)

Dear Doctor,

Congratulations on taking the first step toward a career in dental implantology, and I'd like to personally thank you for your interest in the Dental Implant Surgical Seminar (DISS).

Bellow you will find information about DISS faculty, program schedule and hotel accommodations. We look forward to working with you to advance your career.

Sincerely,

A handwritten signature in black ink, appearing to read 'Omid Termechi', is written over a light blue circular background.

Dr. Omid Termechi

The Dental Implant Surgical Seminar (DISS) helps general and restorative dentists expand their private practice into implant surgery. The seminar provides a thorough introduction to the basics of dental implant surgery and hands-on training in soft tissue management and anatomical structures.

DISS graduates can perform basic dental implant surgery, troubleshoot and conduct follow-ups after surgery. In their own office, for example, they can comfortably place implants next to natural teeth (at least in cases that don't require aesthetic involvement). DISS graduates can provide general and restorative treatments to patients with a full upper-lower denture. Our graduates also thoroughly understand their armamentarium.

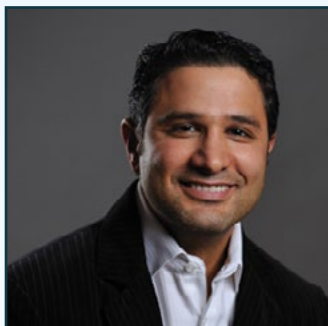

Our mission is to place general practitioners on a solid foundation at the start of their career in dental implant treatments. DISS programs guide participants from basic surgery to full restorations of their implant cases.

DISS programs are conducted at Universidad Francisco Marroquín (UFM) School of Dentistry in Guatemala. UFM has a state-of-the-art dental clinic with on-premise digital X-Rays, CT Scanners, a 3D printer for the surgical guide and full digital scanner for restorative work.

In the course of this hands-on clinical experience, DISS participants will gain experience working on 10-15 implants. Successful completion of DISS creates a solid foundation for more advanced courses currently under consideration or in development.

## Our Partners

### **Dr. Omid Termechi, DDS**

Dr. Omid Termechi is a leading practitioner, educator and innovator in implant dentistry. With offices in Astoria and Long Island, he provides the full range of general, implant and cosmetic dentistry services. Both offices are equipped with state-of-the-art dental chairs and technology such as low-radiation X-Rays and 3D CT scanners. Using minimally invasive pain-free procedures, Dr. Termechi restores smiles and works closely with his patients to help them maintain their dental health.

Dr. Termechi received his D.D.S from the New York University College of Dentistry in 1998. He completed General Practice Residency programs at the Interfaith Medical Center and at the Kingsbrook Jewish Medical Center, both in Brooklyn, NY. He also completed a two-year, full-time Fellowship in Oral Implantology and Biomaterials at the Brookdale Hospital Medical Center in Brooklyn, NY.

Dr. Termechi is an Attending at the Brookdale Hospital Medical Center, Department of Oral Implantology and Biomaterials. He is an Assistant Professor at the Implant Department of New York University College of Dentistry. He was an ADA CELL Seminar Series Lecturer from 2005 to 2015.

Dr. Termechi has achieved an Associate Fellowship status in The American Academy of Implant Dentistry (AAID) as well as Fellowship and a Diplomate status in the International Congress of Oral Implantology (ICOI).

In 2017, Dr. Termechi founded the Dental Implant Surgical Seminar (DISS) in partnership with Universidad Francisco Marroquin (UFM) School of Dentistry in Guatemala. DISS helps general and restorative dentists expand their private practice into implant surgery.

### **Dr. Jose Rodrigo Cayarga de la Hoz**

Dr. Jose Rodrigo Cayarga de la Hoz is a highly regarded practitioner and educator specializing in implant dentistry. Currently in private practice at CAYARGA DENTAL, he also serves as Director and Clinical Instructor at the post-graduate Periodontics and Dental Implants Department of Universidad Francisco Marroquín (UFM) in Guatemala.

Dr. Cayarga received his Degree in Dental Surgery from UFM (Facultad de Odontología) in 2009. He completed his advanced general training and clinical fellowships in Implant and Cosmetic Dentistry at the New York University (NYU) College of Dentistry, where he also served as a Clinical Instructor between 2010 and 2012. Dr. Cayarga's research and academic interests include Osteotome-assisted sinus augmentation, Sinus Lift Surgery with immediate implant placement, Osseointegration and Guided Tissue Regeneration.

Dr. Cayarga is an Active Member of the Academy of Osseointegration (AO) and a Fellow and Diplomate of the International Congress of Oral Implantologists (ICOI). He is also a member of the American Dental Association (ADA) and the Stomatological College of Guatemala.

### **Dr. Cory Glenn**

Dr. Glenn graduated from University of Tennessee Health Science Center College of Dentistry. Following graduation, he completed the Lutheran Medical Center's advanced program in general dentistry at the UT Memphis branch. He is a graduate of the Georgia Maxi Course in Implant Dentistry, the American Orthodontic Society's Comprehensive Ortho Program, and is credentialed as an Associate Fellow in the American Academy of Implant Dentistry.

He has served as the CE director for the TN AGD and as president and CE director of the Middle TN Dental Study Club. Dr. Glenn is also one of the founders of Blue Sky Bio Academy, the online learning center. For several years, Dr. Glenn ran a private practice in Winchester, TN where he performed all disciplines of dentistry with a particular focus on utilizing technology and innovative techniques to provide treatment in an efficient and cost-effective manner.

Dr. Glenn is the VP of Technology for Blue Sky Bio, the leading innovator in implant technology, where he focuses on product and software development as well as clinical customer support. He speaks extensively about CAD/CAM, cone beam technology, guided dental implants, dental photography, digital smile design, complete dentures, and complex full-mouth rehabilitation.

### **Dr. Samuel First**

Dr. Samuel First, DDS, delivers surgical implant services, including bone grafting and extractions, in several practices in the NY Metropolitan area.

He received his DDS degree from New York University College of Dentistry, where he also received the Oral Implantology Certificate from the CDE Implant Program and completed coursework toward an MS degree in Biochemistry. Between 2007 and 2015, Dr. First served as Clinical Associate Professor in Implant Dentistry at the NYU College of Dentistry. Since 2015, he has been Clinical Associate Professor in Esthetic Dentistry.

Dr. First has lectured extensively in residency programs at Kings County Hospital, VA Medical Center, Flushing Hospital and the New York University College of Dentistry. His lectures and moderated discussions have focused on Implant Dentistry for the General Practitioner, Principles and Mechanics of Exodontia, the Immediate Load of Implants and Implant Provisionals. He also conducts periodic office presentations to dental staff on Implant Dentistry and Case Management Protocols with affiliated offices.

Dr. First is a Diplomate of International Congress of Oral Implantology.

### **Dr. Roberto Alejandro Galindo Ramirez**

Dr. Roberto Alejandro Galindo Ramírez currently works in private practice at Clínicas Odontológicas Hurtarte and Zona Dental Guatemala, where he specializes in periodontics and implantology. Dr. Galindo also serves as professor and clinical instructor at the Periodontology Department of Universidad Francisco Marroquín (UFM) in Guatemala. His research and academic interests include osseointegration and the use of bisphosphonates in periodontics.

Dr. Galindo received his Degree in Dental Surgery from UFM (Facultad de Odontología) in 2004. He also received two post-graduate degrees from Universitat Internacional de Catalunya: Master of Research in Biomedicine (2009-2011) and Master in Periodontics and Implantology (2009-2012). In 2012, Dr. Galindo completed externships in periodontics at Harvard University, Boston University and Tufts University. He also completed two separate externships at the University of Alabama at Birmingham (2007 and 2016).

Passionate about improving access to dental care, Dr. Galindo has volunteered extensively over the years with philanthropic organizations including Bellsouth/FUNRURAL, Carlos Murillo/Rotary International and Fernando Lara/ Rotary International.

### **Dr. Takanori Suzuki**

Dr. Takanori Suzuki was born and raised in Tokyo, Japan. He graduated from the Nippon Dental University College of Life Dentistry in Tokyo, Japan and received his Bachelor of DDS degree in 2000. He obtained a doctorate of operative dentistry (PhD) at Nippon Dental University in 2004.

Dr. Takanori worked at Nippon Dental University department of operative dentistry as an assistant professor from 2004 to 2008. He completed a one-year Advanced Program for International Dentists in Comprehensive Dentistry in 2009, two-year Advanced Program for International Dentists in Implant dentistry in 2011 and clinical fellowship in Implant Dentistry in 2012 at the New York University College of Dentistry.

Dr. Takanori is currently Clinical Assistant Professor at New York University College of Dentistry, Ashman Department of Periodontology and Implant Dentistry.

### **Dr. Roger Warren**

Dr. Roger Warren graduated from NYUCD in 1968. He then spent two years in the US Marine Corps.

He received his Periodontics training at NYUCD, graduating in 1973. Thereafter, he began a practice limited to Periodontics in Clifton NJ and has been placing dental implants since 1984. Dr. Warren is a Diplomate of the American Board of Periodontology and an Examiner for the Oral Examination. He is an Associate Professor in the Department of Periodontology & Implant Dentistry at NYUCD.

He has lectured nationally and internationally in addition to many lectures presented at NYUCD. Dr. Warren has published and been recognized often as an outstanding educator.

### **Dr. Irving Horowitz**

Dr. Irving Horowitz received his dental degree from Tufts University. He then pursued his residency in periodontics at the University of California, San Francisco.

Dr. Horowitz held positions as Assistant Professor of periodontics at the University of Pennsylvania School of Dental Medicine. He was also Assistant Clinical Professor of periodontics in the Graduate Training Program in Periodontics and Implants at NYU School of Dentistry.

Dr. Horowitz is the past president of the New Jersey Society of of Periodontics, Princeton NJ.

### **Dr. Bitita Amanda Farhoumand**

Dr. Bitita Amanda Farhoumand is a Board Certified Periodontist and Implantologist. She earned her Bachelor of Arts in Biology with Distinction from the University of Virginia, and attended UCLA School of Dentistry where she received her Doctorate of Dental Surgery.

Dr. Bitita received her Certificate in Periodontics from New York University Post-Graduate Program in Periodontology and Implant Dentistry in 2013.

Dr. Bitita was featured as a guest expert on Top Doctors Medical Interviews in 2013 and 2014, which was broadcasted on CNN, FOX News, Bravo, and MSNBC. She received the Patient's Choice Award in 2015, and the Top Doctor Award for Periodontics & Implant Dentistry for 2016 and 2017.

After Dr. Bitita's training she served some time as Clinical Assistant Professor at New York University, College of Dentistry.

### **Dr. Mehrdad Ijadi**

Dr. Mehrdad Ijadi is an experienced Periodontist with additional advanced training in Endodontics, Oral Surgery and Esthetic Dentistry. Before he moved to the United States, he owned and operated a successful private practice in Iran for nearly 20 years and served on the Endodontics faculty of Azad University for 12 years.

Dr. Ijadi was invited to serve as a faculty member of the New York University College of Dentistry, where he trained dentists in Oral Surgery and Comprehensive and Esthetic Dentistry. Since 2013, he has been in private practice in Northern Virginia. In addition to his academic appointments at NYU and Azad University, Dr. Ijadi has served as Clinical Instructor at the Shahid Beshsti University School of Dentistry in Tehran, Iran (1987-1988).

Dr. Ijadi earned his D.D.S. in 1987 at the University of Centro Escolar School of Dentistry in Manila, Philippines. At NYU, he received certificates in Periodontology and Implant Dentistry, Comprehensive Dentistry, Esthetic Dentistry, and completed a fellowship in Oral Surgery.

Dr. Ijadi has received prestigious awards for his contributions to public health and preventive dentistry. He is a recipient of the Hajar Charity Award for services to orphans in Tehran, Iran and the Certificate of Merit Award for faithful and exceptional service, by the blessed Lorenzo Ruiz Council no, 7344 in Philippines.

## DISS Lectures

Lectures by veteran practitioners who have placed thousands of implants and held academic positions in implantology at highly regarded institutions such as the New York University College of Dentistry. Digital lecture files are provided to each participant.

## DISS Surgery

All participants get a hands-on surgical experience, typically placing at least 15 implants in live patients. All surgeries are performed at the state-of-the-art UFM facility and are supervised by the DISS team of implant surgeons.

## DISS Workshops

The seminar participants will have an access to dental workshops and all necessary instruments, equipment, artificial jaw, etc.

## DISS Certificate of Completion

All participating doctors will receive a certificate of completion at the end of the seminar.

## Hotel Accommodations & Amenities

Four days of breakfast, lunch and dinner including The Gala Dinner on the final evening of the event. Pick-up and drop-off at the Guatemala City airport. Participants are responsible for their own travel to and from Guatemala City.

Participants interested in extending their trip or scheduling extra-curricular activities can contact the concierge desk at Barcelo Hotel.

## DENTAL IMPLANT SURGICAL SEMINAR GUATEMALA July 16-20, 2018

### Day One

**Monday, July 16, 2018**

#### **BASICS OF DENTAL IMPLANT SURGERY by Dr. Omid Termechi**

6:30 am	Breakfast served at the Barcelo Hotel
7:30 am	Transportation from the hotel to the university
8:00 am	Welcoming Remarks
8:30 am	Morning Lecture
10:00 am	Coffee Break
10:30 am	Morning Lecture Continued
Noon	Lunch
1:00 pm	Afternoon Lecture
3:00 pm	Coffee Break
3:30 pm	Afternoon Lecture Continued
6:00 pm	Q&A
7:00 pm	Dinner
9:30 pm	End of Day 1. Transportation back to the hotel

## Day Two

**Tuesday, July 17, 2018**

**DIGITAL IMPLANTOLOGY- FROM PLANNING TO RESTORATION**  
**by Dr. Cory Glenn**

6:00 am	Breakfast served at the Barcelo Hotel
7:00 am	Transportation from the hotel to the university
7:30 am	Lecture
10:00 am	Break
10:30am	Hands-on Planning
Noon	Lunch
1:00 pm	Hands-on Planning Continued
3:00 - 4:00 pm	Model Hands-on Workshop
4:30 - 7:00 pm	Clinic hours: Live Surgery
7:30 pm	Dinner / Q&A
9:30 pm	End of Day 2. Transportation to the hotel

## Day Three

**Wednesday, July 18, 2018**

### **PREVENTION OF DENTAL IMPLANT COMPLICATIONS - EXCESS CEMENT by Dr. Takanuri Suzuki**

6:00 am	Breakfast served at the Barcelo Hotel
7:00 am	Transportation from the hotel to the university
7:30 am	Clinic Hours: Live Surgery
Noon	Lunch and Learn
1:30 pm	Afternoon Session: Live Surgery
7:30 pm	Dinner / Q&A
9:30 pm	End of Day 3. Transportation back to the hotel.

## Day Four

**Thursday, July 19, 2018**

**SOFT TISSUE MANAGEMENT, PERIODONTITIS AND IMPLANT MAINTENANCE  
by Dr. Roberto Galindo**

6:00 am	Breakfast served at the Barcelo Hotel
7:00 am	Transportation from the hotel to the university
7:30 am	Clinic Hours: Live Surgery
Noon	Lunch and Learn Lecture
1:00- 6:00 pm	Afternoon Session: Live Surgery
7:30 pm	Gala Dinner / Certificate Presentation
11:00 pm	End of seminar. Transportation to the hotel

## Day Five

**Friday, July 20, 2018**

8:00 am	Breakfast is served at the hotel
9 am to noon	Drop-off at the airport

## Dental Implant Surgical Seminar

### Headquarters

30-12 30th Avenue, Suite 230

Astoria, NY 11102

**Main: 917.742.4978**

**Office: 718.956.7800**

[info@dentalimplantsurgicalseminar.com](mailto:info@dentalimplantsurgicalseminar.com)

## Preparations

**Congratulations on joining the DISS community and taking a step toward a career in implant dentistry. Below is your preparations checklist.**

1. Make sure your passport has more than six months before expiration.
2. Email your itinerary and a copy of your passport to [dentalimplantsurgicalseminar@gmail.com](mailto:dentalimplantsurgicalseminar@gmail.com) with the subject line: e.g., Dr John Smith Itinerary and Copy of My Passport.
3. Don't forget your dental loops and light if you have any.
4. Bring comfortable shoes or sneakers.
5. Bring a few scrub tops with you.
6. Bring a laptop that meets the minimal requirements for BSB software. Download the software to your laptop at [www.Blueskybio.com](http://www.Blueskybio.com).
7. Make sure you have WhatsApp installed on your phone. Add +1 5163958837 for messages in continental USA and +502 3014-8007 in Guatemala.
8. Everyone will be picked up from the airport in timely fashion, but, if there is any delay, please be patient.
9. From the airport, you will be taken to the hotel for check-in. The hotel will have your reservation details.
10. Check-in time at the hotel is 3pm, and check-out is 11am.
11. Sunday night meals are not covered by DISS. You can choose from three different restaurants at the hotel.
12. Breakfast is served at the hotel, so please set your alarms; you need to be ready for pick-ups at 7:30 am.
13. Please be considerate to your fellow participants and arrive on time for transportation to and from the hotel.
14. We are trying to give every participant the opportunity to place an equal number of implants. The DISS faculty will assign patients based in part on the level of difficulty and the participant's level of prior experience with implants. Patients can be exchanged between doctors during surgery to give equal opportunity for implant placement.
15. For your ICOI fellowship case documentation, you should bring your intra oral camera (if you have), mirrors and retractors.
